

CalWORKs Student Learning Outcomes 2016-17

Core Activity	Target Population	Student Learning Outcome	Assessment Tool	Evaluation Timeline	Assessment Results	Analysis Plan and Timeline
Tutoring	Students who need or seek tutoring	Students will recognize the benefits of coming in and receiving tutoring assistance from CalWORKs student-led tutors	Grades will be used to compare tutored with non-tutored students.	Fall 2016	In Fall 2016 56 students took a Math class. 10 student received tutoring from our CalWORKs tutor. All 10 of those same students passed their Math course.	CalWORKs tutoring assists our CalWORKs students greatly. CalWORKs students do come in for CalWORKs specialized tutoring. The students who come in greatly benefit from being tutored as all students passed their Math courses.
CalWORKs Student Growth and Learning	All CalWORKs students who participated in mid-winter workshops	Student will gain additional skills and strategies in self-empowerment	The assessments will be based on student workshop pre and post assessment and workshop packet responses.	Winter 2017	57 students participated in the winter workshop. 56 said that after completing	Students in CalWORKs don't always practice self-care. Students benefitted from reflecting on themselves

					the workshop they know the value of self-healing and self-love. 52 students said they would start making themselves a priority vs 21 prior to the workshop. (see excel sheet)	and their own self-love to gain empowerment skills. We will be continuing to read books that promote healing and growth within.
CalWORKs students connection to community resources	All CalWORKs students	Students will learn about and take action on appropriate community resources and referrals	We will look at all incoming students as well as students who were referred to community programs throughout the semester and follow up with them on whether they obtained the resources and if they helped	Fall 2016	(see excel sheet) Every student who comes in to the CalWORKs Program is assessed for needed services both on and off campus. Students are either referred or given	Referrals are part of the CalWORKs program. Results are as follows: On campus resources: 48 referred, 10 were given information; Shelters:28 referred 28 given information; Second

					information regarding needed services.	Harvest and Food Pantries: 48 referred, 10 on gave information; Domestic Violence: 22 referred and 35 were given information. We will continue to work on to increase our outreach to studnets to connect them with needed services and expand our outreach into the community to learn of new services to assist our clients.
